

**Portage Lake Sportsmen's Club**  
**INTRODUCTION TO HANDGUNS FOR WOMEN**  
**2pm to 4pm, Sunday, May 22**

Are you interested in learning about handguns? Would you like to learn in a relaxed, informal, and friendly environment?

If so, Dave and Kathy Caspary are hosting an informational session for any women club members (no men allowed) to introduce you to handgun safety, the types of handguns typically used for concealed carry, and methods and considerations for concealed carry.

Topics we will cover:

- Safe handling of handguns
- Handgun terminology
- Types of handguns typically carried for self-defense
- What to consider before purchasing a handgun
- Ways to carry a handgun concealed
- Resources to further your training and knowledge
- If time and weather permits we will also have some time to try out a handgun on the range

We will have a number of different types and sizes of handguns available as well as several types of holsters and other carry methods.

After attending this informal session you should know how to keep yourself and others safe around a handgun, be able to make an informed decision on a handgun purchase, and be able to select an appropriate formal course to further your education.

Dress comfortably to stay warm. The clubhouse is unheated and the range is outside. If you have hearing and eye protection, bring with, otherwise the club has some to use.

We will be asking for a donation of \$5 to cover ammunition, photocopying, and use of the club.

RSVP to Kathy at [k.r.caspary@gmail.com](mailto:k.r.caspary@gmail.com)
